Agreement on the use of cookies

What are cookies?

Cookies are small data files, in the form of text and / or numbers, that are stored on your computer or any other device with an Internet browser when you visit a website so that your device is recognized on a subsequent visit. Cookies can be used for various purposes, but are usually used to ensure the effective functioning of the site and to collect / store information about user settings. In other words, cookies make the use of the Internet easier, because they provide users with a personalized experience of using the site and the convenience of navigating through it. Cookies are passive files and can not spread computer viruses or other malicious software.

Web sites use information collected through cookies to store information about the user and his preferences, such as whether the user is registered, how the website is used by the user, etc. Cookies are usually deleted automatically when the browser is closed (cookie session).

However, some cookies can be deleted at a certain date or after a certain period of time (persistent cookies). Such cookies are usually stored on your hard drive.

There is also a difference between cookies owned by the website owner (installed on the website visited by the user) and third-party cookies (installed by a third party with built-in links to the website visited by the user). Third-party cookies are usually installed by web analytics services, etc.

How we use cookies

We use cookies to constantly improve and update our site for maximum user convenience. The information we collect is anonymous, and we can not associate data collected with cookies with other information about you. Only emma technologies S.a.r.l.-S and the services listed below have access to information.

In order to constantly improve the content and services on our website, we collect anonymous statistics on an ongoing basis. We use Google Analytics cookies and Yandex.Metrica to collect statistics on how you use our site. This helps us identify any anomalies and make the site more convenient for you. Google Analytics cookies and Yandex.Metrica contain a randomly generated
ID used to recognize the browser when you read the page. They do not contain personal data and are used only for web analysis.

Please note that by continuing to use our site, you consent to the cross-border transfer of cookies to the statistical web service "Google Analytics" located in the United States and to the statistical service "Yandex.Metrica", whose servers, in addition to the Russian Federation are located in the territory of the European Union. If you are against this, follow the instructions given in the "How to stop using cookies" section.

How to opt out of using cookies

By changing the proper settings in the browser, you can reject cookies and/or configure your browser to receive a warning before the cookie is saved. However, please note that if you disable the ability to store cookies, we do not guarantee the correct operation of our website in your browser. We hope that you will allow the use of cookies so that visiting our site is as convenient as possible for you.

If you do not want to receive cookies from our site, you can (in most browsers) go to additional browser settings and add our site to the list of websites with cookies blocked. Also, you can delete individual cookies or all cookies that your browser has saved.

If you do not want to use cookies, but you can not block their use (for any reason, that is, because your browser can not support this option), please stop using our site immediately.
